

Report (195/200)

- Different options for each component (UI/frontend, logic/backend, database) were listed and a comparison of the pros and cons were made for each of them.
- The decision-making process is logical.
- A summary is provided for the final decision.
- Some external sites were included in the report, would be nicer to provide proper citation list at the end.

Deployed Application (570/600)

1 - The application is functional (200/200)

- Basic functionality is working fine (e.g. adding items, summing the total amount, and applying tax).
- User login is added.

2 - The application's UI is present and usable (200/200)

- The UI is very well done; it is visually appealing with concise placement of images and texts.
- The UI is able to adapt to different devices (desktop, phones and tablets).

3 - Testing infrastructure implemented (170/200)

- A basic testing infrastructure is implemented.
- Some descriptions were included to further expand the test setup.

Testing Availability (180/200)

1 - The application is deployed (100/100)

- A link is provided for testing.
- Auto deployment is implemented.

2 - Instructions for testing are provided (80/100)

- Some instructions are provided for testing the application locally and through the deployed link.

Total: $195/200 * 20\% + 570/600 * 60\% + 180/200 * 20\% = 94.5\%$
